

SUPPORT

- **California Senate Bill 840 which provides FULL HEALTH CARE coverage for all**

California can lead the way for America with **TRUE Universal Health Coverage!** We want our health care dollars to go for care ---not ads on TV and campaign contributions to help the insurance industry control our health care! Insurance companies add no health care value and bleed the system for their own benefit. We

need fewer paper pushers and more doctors and nurses! Only single payer can cut costs and improve quality of care! And only a huge public outcry will make it happen.

- **How you can HELP make HISTORY!**
